

*“I wanted to take a minute to comment on the completeness and professionalism with which the documentation for My HealtheVet (MHV) has been generated. Comments from the assessment team indicate that this documentation is among the best they have encountered.”*

*– Robert W. Baxley  
VA Chief of Security Compliance, IT  
Security and Compliance Risks  
Division MHV Corer*

# My HealtheVet

## MHV Core Development

By Light has been a key and trusted partner of the My HealtheVet (MHV) program for eight years, supporting Development, Redesign, Enhancements, and transition to the VA Enterprise Cloud.

Using a SAFe Agile methodology and DevSecOps process, By Light has built and continues to modernize the Government's most active web portal with a user approval rating surpassing 8 on a 1-10 scale.

Our proven approach of rapid deployment, Continuous Delivery and Continuous Improvement allows for scaling to meet the ever-growing demand for mission-critical content and services and align MHV systems and functionality into the major enterprise initiatives, resulting in:

- Improved patient outcomes
- Increased interoperability
- Systems modernization and embracing cloud computing
- Improved security posture
- Test automation
